Scanning up to Twelve Meters: with the Mobile Terminal M260TE with Android™ Industrial+ and 2D-Longrange Scanner

The bestseller in warehouse logistics, the M260TE mobile terminal from ACD Elektronik GmbH, will now also be available in the Android™ Industrial+ version with an optional 2D longrange scanner. The advantages are plain to see: Modern user guidance familiar to users of Android™ smartphones, enormous scan ranges and all that combined with the quality of the German manufacturer!

Powerful 2D longrange scanner with enormous range

To further simplify work processes in the warehouse, the M260TE mobile terminal with Android™ is now optionally available with a 2D longrange scanner as well. The 2D longrange scanner, integrated into the handle, reads all commonly used 1D and 2D barcodes. With tis enormous range, it enables simple and reliable code reading directly from the forklift truck. With the addition of this new scanner variant to the product portfolio, all commonly used scanner variants (1D, 2D, 1D longrange and 2D longrange) will be available to customers in the future, regardless of whether they are using an Android™ or Windows® device from ACD.

Nothing has changed in the familiar advantages of the M260TE: The handheld device which is ideally suited for scanning-intensive activities is equipped with a powerful NXP processor to ensure maximum productivity in mobile applications. The M260TE with Android™ also features impressively simple user navigation while the modern operating system with its familiar operating environment ensures a high level of employee satisfaction. An integrated rechargeable battery for long battery runtimes and high-quality scanners in the commonly used variants ensure fast, efficient and error-free work in industrial environments.

The M260TE mobile terminal with Android™ Industrial+ and 2D longrange scanner stand for the familiar quality and good service and support of the German manufacturer. All in all, the M260TE remains the optimum assistant for all warehouse and logistics processes and allows for easy, efficient and modern work in harsh environments.
